Providing a power reserve of approximately 72 hours (3 full days), the longest of any Seiko mechanical watch, the movement is equipped with a GMT hand can be set independently in one-hour increments, without interrupting the time-of-day hands, to provide a second time zone reading at a glance. Upon pressing the PLI button on your watch, the seconds hand will increment forward by either 5, 10, 20, or 30 seconds. These 4 power levels indicate different amounts of reserve power before the watch stops running. The watch's timekeeping is unaffected by the PLI activity, and once the

How many days does a Seiko watch have a power For example, if a Seiko watch has a power reserve of 48 hours and it is worn for roughly 8 hours each day, it may easily sustain performance
