How many GW of inverters does EKS have?EKS has successfully implemented over 4.5 gigawatts (GW) of inverters on a global scale, even in the most challenging and complex grid environments. Global energy storage platform provider Powin LLC (Powin) today announced a new partnership with global technology leader Hitachi Energy. Why did EKS energy join Hitachi energy?The addition of eks Energy to the Hitachi Energy portfolio demonstrates accelerated traction on the company's strategic growth plan. Hitachi Energy is continuously strengthening its power grids core business while advancing the world's energy system to be more sustainable, flexible and secure. Will Hitachi energy & EKS develop PCS products together?The pair have formed a strategic partnership with a view to developing PCS products for the energy storage market together. EKS will gain access to Hitachi Energy's advanced engineering and control capabilities, as well as its global market reach, and supply chain advantages, Powin said. Is EKS a good inverter provider?At that time, Powin executive VP Danny Lu told Energy-Storage.news that EKS is an inverter provider with a strong track record of working on challenging grid-connected and off-grid projects; in other words, projects at the grid edge. What is EKS energy's Waratah Super Battery (WSB)?"We are proud of what we have already developed with eks Energy, including one of the world's largest battery projects in history, the Waratah Super Battery (WSB) where eks Energy's unrivaled power conversion systems are able to meet the Australian grid operators' high standards of performance.
