What's new at TCL SunPower global? Trump pauses most reciprocal tariffs, escalates with China, and stocks surge. See the latest. LYON, France, March 31, /PRNewswire/ --

TCL SunPower Global, a new energy business unit within TCL Group, was announced today to commence its business operations as a leading provider of innovative solar energy solutions. What is TCL & SunPower? The launch reflects the combined strengths of TCL's large-scale manufacturing and SunPower's solar innovation, offering a wide range of energy solutions tailored for homes, businesses, and large-scale installations. Leading the lineup is the SunPower Home Energy Storage system. Who is TCL photovoltaic technology? TCL Photovoltaic Technology is a green energy full-lifecycle smart service provider that offers one-stop solutions integrating development, manufacturing, and energy management. Founded in , TCL has grown into a globally competitive intelligent technology industry group over its 42-year development history. Is TCL group a supply partner? We are pleased to confirm we have achieved approved supply partner status within the newly launched Procurement Assist Cyclical Maintenance Framework . The appointment sees TCL Group join a selection of suppliers within London, South East and East of England. What are TCL solar panels? In addition to the M Class, a new range of TCL Solar panels is being introduced using both back-contact and TOPCon technologies. These panels are constructed with a glass-glass design and come with extended warranties, offering a cost-effective and dependable solution for a wide range of installations. The launch reflects the combined strengths of TCL's large-scale manufacturing and SunPower's solar innovation, offering a wide range of energy solutions tailored for homes, businesses, and large-scale installations. Leading the lineup is the SunPower Home Energy Storage system.
