ABU DHABI, UAE, Jan. 14, /PRNewswire/ -- In the presence of President His Highness Sheikh Mohamed bin Zayed Al Nahyan, Abu Dhabi Future Energy Company PJSC - Masdar and Emirates Water and Electricity Company (EWEC) today announced the launch of the world's first large-scale 'round the clock' solar and battery storage project in Abu Dhabi. Abu Dhabi is already a regional leader of renewable electricity, with its 2.6GW of currently installed solar capacity accounting for nearly half of the UAE's 5.5GW solar total. The UAE has launched what it says is the world's first and largest 24-hour power project, combining solar photovoltaic with battery storage.

Astana, Kazakhstan - May 13, : His Highness Sheikh Khaled bin Mohamed bin Zayed Al Nahyan, Crown Prince of Abu Dhabi and Chairman of the Abu Dhabi Executive Council, and His Excellency Kassym-Jomart Tokayev, President of the Republic of Kazakhstan, witnessed a collaboration agreement between Masdar and EWEC. In a remarkable advancement for renewable energy, the United Arab Emirates, under the auspices of His Highness Sheikh Mohamed bin Zayed Al Nahyan, President of the UAE, has inaugurated the world's largest integrated solar and battery storage project. Combining solar energy generation with advanced battery storage technology, the project will dispatch clean energy 24/7.

The United Arab Emirates is building the world's largest solar and battery storage project that will dispatch clean energy 24/7. Emirati Renewable energy company Masdar (Abu Dhabi Future Energy Company) and Emirates Water and Electricity Company (EWEC) are developing the trailblazing solar and battery storage project. The United Arab Emirates (UAE) has launched the world's first large-scale round-the-clock gigascale energy storage project in Abu Dhabi, combining solar power and battery storage in a significant development for the country's energy sector. The initiative positions the UAE as a leader in renewable energy. The UAE will launch the world's first round-the-clock solar photovoltaic (PV) and battery storage (BESS) gigascale project in Abu Dhabi. The United Arab Emirates (UAE) is strengthening its position as a global leader in renewable energy with the launch of the world's first round-the-clock solar and battery storage project. The UAE makes a giant leap into the energy storage sector. The UAE has launched what it says is the world's first and largest round-the-clock solar photovoltaic (PV) and battery storage (BESS) gigascale project in Abu Dhabi. Crown Prince of Abu Dhabi and President of Kazakhstan Witness Masdar announced a significant advance in battery storage technology this year, with the launch at Abu Dhabi Sustainability Week (ADSW) of the world's first gigascale 24/7 solar PV battery storage project.

UAE Launches World's Largest Integrated Solar and Battery Storage Project In a remarkable advancement for renewable energy, the United Arab Emirates, under the auspices of His Highness Sheikh Mohamed bin Zayed Al Nahyan, President of the UAE, has inaugurated the world's largest solar + storage project. The world's largest solar + storage project will deliver up to 1 gigawatt (GW) of baseload power every day generated from renewable energy, it will be the
